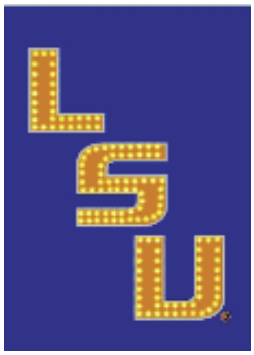
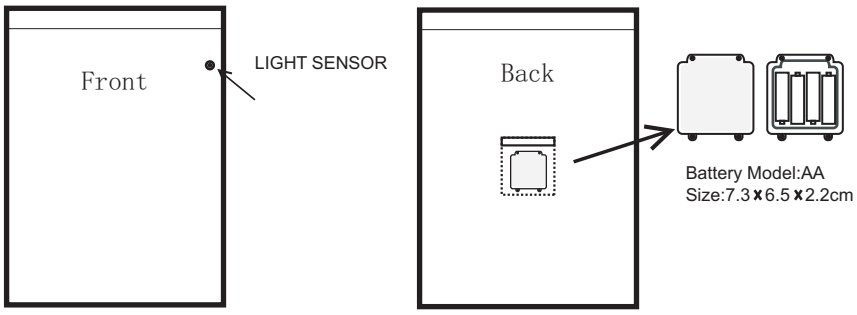
Fiber Optic Lighted Garden Banner
13”x18” for indoor or outdoor use



INSTRUCTIONS



Directions:
-Open battery box cover in back pocket
-Insert four “AA” batteries into battery compartment
-The banner lights will be activated by light sensor when it becomes dark
-Installed timer then runs light for 6 hours

Caution:
-Do not mix battery brands or old and new batteries together
-This banner contains small parts, not for children
-This is not a toy

Notes:
-Several flashing/lighting effects available. GIF animation examples available via email.
-About 30 days per battery set with normal use.
-The light sensor must be reset by daylight before it will activate by darkness again. That way it should run once per evening.
-200 piece minimum per new design with 100+ prebook on schools with multiple accounts buying.
-With $25 suggested retail.

Our 200 Denier Nylon Flag Material is made from Type 66 Bright material.

Numbers followed by an “A” are applique material made from Type 66 coated nylon with a fade resistance additive.

Either material may be used for flags or applique if desired.

*Uncoated nylon material is recommended for indoor use only when used to do the applique logo.

EFFECTIVE JAN 2009
